

**DENİZ TİCARET ODASI BAŞKANLIĞINA  
İSKENDERUN**

**Number** : 24/İSK-L-1042  
**Subject** : Change in X-Ray Service Process

26.08.2024

Dear Valued Business Partners,

Currently when X-ray inspection is requested by relevant authorities for export containers, the service is provided immediately without payment or a request form.

As of 04.09.2024, the information of the containers for which X-Ray inspection service is requested will be automatically shared with the container's agent via e-mail, and the relevant parties will be requested to make X-Ray request and payment to the port promptly.

If containers' payment are not made after the X-Ray service; the containers will not be included in the ship loading list and will not be loaded. Additionally, the companies working with our port working with a letter of guarantee basis must also make a request and indicate that they are working with a letter of guarantee basis.

LimakPort will not be held responsible for any commercial losses that may occur in the event that containers which are subject to X-Ray service without payment and a request form; aren't included in the loading list and therefore are unable to be loaded onto the ship.

We kindly submit the necessary information to be announced to all our members.

  
Ayşen ÇAKIROĞLU AŞCI  
Commercial Director
